# ANDREW LEVYTSKYI

WEB DEVELOPER

25 years old

## PROFESSIONAL EDUCATION

### Kyiv University of Construction and Architecture

*Master's degree* | Kyiv (2014-2019)

-Graduated from the Kyiv National Construction University with a degree in civil engineering with honors, before that he graduated from a college in the city of Sevastopol.

### Udemy programming courses

*Graduate student* | Kyiv and Lviv (2021-2022)

- For almost 2 years now, I have been actively taking full-stack courses on the Udemy educational platform, YouTube and documentation. Teachers like Laravel Daily and Dr. Angela Y. In total, I spent more than 1100+ hours studying and practicing, and it paid off!

## EXPERIENCE

### BIM design engineer

*'KAN Development'* | Kyiv (02.2019 - 02.2022)

-Development of project documentation, drawing, communication with clients, work with the AutoCAD program

### Junior Full-Stack Developer

Freelancing jobs | Kyiv (08.2022 - 02.2023)

- Development of business cards and landing pages for your friends and acquaintances. Also work on your pet projects both in native PHP/SQL/JS and Laravel/Redis/MySQL/Vue.js

### Junior Backend Developer

*'SK-Group EU'* | Lviv (04.2023 - 07.2023)

- Product development for automation of warehouses and logistics using native PHP/MySQL/JQuery. Extension and editing of existing functionality, practice with a large volume of data in the database and a large amount of logic in the program itself

## PROJECT EXPERIENCE

Made more than ten projects using technologies:  
HTML/SCSS/Bootstrap/PHP 8+/Vue/MySQL/Laravel 10  
All of them are available for viewing on my repository:  
<https://github.com/Andrewlevvv23>

Or from links on my personal website, a summary I made from scratch before publishing on hosting: <https://andrewlev.biz.ua/>
